Author Index

VOLUMES 193–200 (1981)

Aangstroem, J. See Falk, K. E.
Abe, E. See Kubota, M.
Abraham, E. P. See Jayatilake, G. S.
Adams, M. E.
——; Muir, H.
The glycosaminoglycans of canine menisci. 197: 385
Adams, P. A.
Interpretation of thermodynamic conmpensation plots for acyl α-chymotrypsin systems. 197: 527
Adiga, P. R. See Muniyappa, K.
Adler, J. See Gill, P. J.
Adrian, G. S.
——; Keenan, R. W.
Dolichyl phosphate phosphatase from Tetrahymena pyriformis. 197: 233
Afting, E. G.
——; Becker, M. L.
Two-step affinity-chromatographic purification of cathepsin D from pig myometrium with high yield. 197: 519
——; Bernhardt, W.; Janzen, R. W. C.; Roethig, H. J.
Quantitative importance of nonskeletal-muscle N$^{\tau}$-methylhistidine and creatine in human urine. 200: 449
Agius, L.
——; Blackshear, P. J.; Williamson, D. H.
Rates of triacylglycerol entry into the circulation in the lactating rat. 196: 637
Agrawal, H. C. See Mena, E. E.
Ahmad, F.
——; Ahmad, P. M.; Dickstein, R.; Greenfield, E.
Detection of ligand-induced perturbations affecting the biotinyl group of mammalian acetyl-coenzyme A carboxylase by using biotin-binding antibodies. 197: 95
Ahmad, P. M. See Ahmad, F.
Ahmed, K. See Veneziale, C. M.
Ahmed, S.
——; Booth, I. R.
Quantitative measurements of the proton-motive force and its relation to steady state lactose accumulation in Escherichia coli. 200: 573
The effects of partial and selective reduction in the components of the proton-motive force on lactose uptake in Escherichia coli. 200: 583
Ainsworth, S. See Gregory, R. B.
Airhart, J. See Hildebran, J. N.
Aithal, H. N. See Rao, G. R.
Alitalo, K. See Myllylae, R.
Allan, D.
——; Thomas, P.
Calcium-induced biochemical changes in human erythrocytes and their relation to microvesiculation. 198: 433
Allen, A. See Mantle, M.; Pearson, J. P.
Allen, A. K. See Ashford, D.; Desai, N. N.; McKenzie, J. L.
Allen, D.
——; Thomas, P.
The effects of calcium and strontium on calcium-sensitive biochemical changes in human erythrocytes and their membranes. 198: 441
Allison, J.
——; Hall, L.; MacIntyre, I.; Craig, R. K.
The construction and partial characterization of plasmids containing complementary DNA sequences to human calcitonin precursor polyprotein. 199: 725
Alpers, D. H. See Young, G. P.
Al-Shawi, M. K.
——; Brand, M. D.
Steady-state proton/oxygen stoichiometry of liver mitochondria. 200: 539
Anderson, L. E. See Ashton, A. R.
Anderson, P. J. See Elce, J. S.
Anderson, R. A. Jr.
——; Beyler, S. A.; Mack, S. R.; Zaneveld, L. J. D.
Characterization of a high-molecular-weight form of human acrosin. Comparison with human pancreatic trypsin. 199: 307
Anderson, T. A. See Bygrave, F. L.
Andersson, L. O.
——; Brown, J. E.
Interaction of Factor VIII-von Willebrand Factor with phospholipid vesicles. 200: 161
Andreoni, V.
——; Canonica, L.; Galli, E.; Gennari, C.; Treccani, V.
2,3-Dihydroxybenzoate pathway in Pseudomonas putida. Proton NMR study on the ring-cleavage site. 194: 607
Andrews, P. See Salter, D. N.
Ansari, A. A.
Separation of rat lactate dehydrogenase isoenzyme C_4 from other isoenzymes by affinity and ion-exchange chromatography. 199: 75
Antoniou, M.
——; Craig, R.; Dils, R.
Identification of fatty acid synthetase messenger RNA on free polyribosomes isolated from lactating rabbit mammary gland. 199: 789
Aoki, Y.
——; Natori, S.
Activation of latent ribonuclease in the fat-body of fleshfly (Sarcophaga peregrina) larvae on pupation. 196: 699
Appella, E. See Dubois, G. C.
Applebaum, S. W.
——; James, T. C.; Wreschner, D. H.; Tata, J. R.
The preparation and characterization of locust vitellogenin messenger RNA and the synthesis of its complementary DNA. 193: 209
Aragon, M. C. See Mayor, F. Jr.
Aranyi, P. See Machovich, R.
Arnstein, H. R. V. See Setchenska, M.
Aronsson, A. C.
——; Sellin, S.; Tibbelin, G.; Mannervik, B.
Probing the active site of glyoxalase I from human erythrocytes by use of the strong reversible inhibitor S-p-bromobenzylglutathione and metal substitutions. 197: 67
Ashcom, J. See Franzen, B.
Ashcroft, S. J. H. See Sugden, M. C.
Asher, I. See Lamola, A. A.
Ashford, D.
——; Menon Rajeev; Allen, A. K.; Neuberger, A.
Studies on the chemical modification of potato (Solanum tuberosum) lectin and its effect on hemagglutinating activity. 199: 399
Ashton, A. R.
——; Anderson, L. E.
A novel procedure for the rapid purification of plastocyanin from pea (Pisum sativum) leaves. 193: 375
Assimacopoulos-Jeannet, F.
——; Denton, R. M.; Jeanrenaud, B.
Stimulation of hepatic lipogenesis and acetyl-coenzyme A carboxylase by vasopressin. 198: 485
Atassi, M. Z. See Kazim, A. L.
Auffret, C. A.
——; Turner, M. J.
Variant specific antigens of Trypanosoma brucei exist in solution as glycoprotein dimers. 193: 647
Auricchio, F.
——; Migliaccio, A.; Castoria, G.
Dephosphorylation of estradiol nuclear receptor in vitro. A hypothesis on the mechanism

of action of nonsteroidal antiestrogens. 198: 699
——; Migliaccio, A.; Rotondi, A. Inactivation of estrogen receptor in vitro by nuclear dephosphorylation. 194: 569
Austen, K. F. See Schwartz, L. B.
Aviles, F. X. See Martinez, M. C.
Axelson, M. See Setchell, K. D. R.
Ayad, S. R. See Marchmont, R. J.
Azhar, S.
——; Menon, K. M. J. Receptor-mediated gonadotropin action in the ovary. Action of cytoskeletal element-disrupting agents on gonadotropin-induced steroidogenesis in rat luteal cells. 194: 19
Receptor-mediated gonadotropin action in the ovary. Inhibitory actions of concanavalin A and wheat-germ agglutinin on gonadotropin-stimulated cyclic AMP and progesterone responses in ovarian cells. 200: 153

Bach, G. See Zeigler, M.
Bacon, J. S. D. See Gordon, Alex. H.
Badawy, A. A. B. See Snape, B. M.
Possible involvement of the enhanced tryptophan pyrrolase activity in the corticosterone- and starvation-induced increases in concentrations of nicotinamide-adenine dinucleotides (phosphates) in rat liver. 196: 217
——; Punjani, N. F.; Evans, M. The role of liver tryptophan pyrrolase in the opposite effects of chronic administration and subsequent withdrawal of drugs of dependence on rat brain tryptophan metabolism. 196: 161
——; Welch, A. N.; Morgan, C. J. Tryptophan pyrrolase in heme regulation. The mechanism of the opposite effects of tryptophan on rat liver 5-aminolevulinate synthase activity and the heme saturation of tryptophan pyrrolase. 198: 309
Bailey, A. J. See Le Pape, A.
Bailey, D. S.
——; Burke, J.; Sinclair, R.; Mukherjee, B. B. Glycoprotein biosynthesis in animal cells grown in suspension culture. Assembly of lipid-linked saccharides and formation of protein-bound 'high-mannose' oligosaccharides. 195: 139
Bailey, I. A.
——; Williams, S. R.; Radda, G. K.; Gadian, D. G. Activity of phosphorylase in total global ischemia in the rat heart. A phosphorus-31 nuclear-magnetic-resonance study. 196: 171
Baines, B. S. See Brocklehurst, K.
Bakker, G. H.
——; Hoogerbrugge, J. W.; Rommerts, F. F. G.; Van der Molen, H. J. Lutropin-dependent protein phosphorylation and steroidogenesis in rat tumor Leydig cells. 198: 339
Balasubramaniam, S. See Mitropoulos, K. A.
Baldwin, G. S. See Goodall, G. J.
Baldwin, J. E.
——; Keeping, J. W.; Singh, P. D.; Vallejo, C. A. Cell-free conversion of isopenicillin N into deacetoxycephalosporin C by Cephalosporium acremonium mutant M-0198. 194: 649
Ballard, F. J. See Hopgood, M. F.; Knowles, S. E.
Banda, M. J.
——; Werb, Z. Mouse macrophage elastase. Purification and characterization as a metalloproteinase. 193: 589
Banerjee, S. See Mahato, S. B.
Banga, J. P.
——; Penfold, P.; Roitt, I. M. The use of horseradish peroxidase-lectin conjugates to monitor the purity of plasma-membrane preparations obtained from isolated cells. 198: 421
Banner, M. See Vakili, B.
Baratova, L. A. See Vospelnikova, N. D.
Barber, J. See Moeller, I. M.
Barber, M.
——; Bordoli, R. S.; Garner, G. V.; Gordon, D. B.; Sedgwick, R. D.; Tetler, L. W.; Tyler, A. N. Fast-atom-bombardment mass spectra of enkephalins. 197: 401
Bardenheuer, H. See Schrader, J.
Bardsley, W. G. See Solano-Munoz, F.
Barenholz, Y. See Gatt, S.
Barford, P. A. See Purdy, S. E.
Barker, C. See Wood, E. J.
Barnard, E. A. See Dolly, J. O.
Barnes, M. J. See Murphy, G.; Sankey, E. A.
Barra, D. See Calabrese, L.
Barrett, A. J. See Nagase, H.; Saklatvala, J.; Salvesen, G. S.
Barritt, G. J. See Parker, J. C.
Barry, F. P.
——; Doonan, S.; Ross, C. A. Cleavage by trypsin and by the proteinase from Armillaria mellea at ε-N-formyl-lysine residues. 193: 737
Barthelmess, I. B. See Flint, H. J.
Basaveswara Rao, V.
——; Sastri, N. V. S.; Subba Rao, P. V. Thermal stabilization of glucose oxidase and glucoamylase by physical entrapment. 193: 389
——; Sastri, N. V. S.; Subba Rao, P. V. Purification and characterization of a thermostable glucoamylase from the thermophilic fungus Thermomyces lanuginosus. 193: 379
Basu, P. S. See Datta, T. K.
Bates, P. C. See Brown, J. G.
Battelli, G. See Zamboni, M.
Battersby, A. R. See Williams, D. C.
Bauche, F.
——; Sabourault, D.; Giudicelli, Y.; Nordmann, J.; Nordmann, R. 2-Mercaptoacetate administration depresses the β-oxidation pathway through an inhibition of long-chain acyl-CoA dehydrogenase activity. 196: 803
Bauer, C. See Koettgen, E.
Bauer, P. I. See Machovich, R.
Bauminger, E. R. See Yariv, J.
Baumrucker, C. R.
——; Pocius, P. A.; Riss, T. L. Glutathione utilization by lactating bovine mammary secretory tissue in vitro. 198: 243
Bause, E.
——; Legler, G. The role of the hydroxy amino acid in the triplet sequence Asn-Xaa-Thr(Ser) for the N-glycosylation step during glycoprotein biosynthesis. 195: 639
Baverel, G. See Forissier, M.
Baxter, E. See Fraser, J. R. E.
Baydoun, E. A. H.
——; Northcote, D. H. The extraction from maize (Zea mays) root cells of membrane-bound protein with calcium-dependent ATPase activity and its possible role in membrane fusion in vitro. 193: 781
Baynes, J. See Morrone, S.
Beatrice, M. C.
——; Pfeiffer, D. R. The mechanism of palmitoyl-CoA inhibition of calcium uptake in liver and heart mitochondria. 194: 71
Bechtel, P. J. See Callaway, J. E.
Becker, F. F. See Chan, J. Y. H.
Becker, M. L. See Afting, E. G.
Beechey, R. B. See Lowe, P. N.; Shirazi, S. P.

Beer, N. S.
——; Griffiths, W. T.
Purification of the enzyme NADPH:protochlorophyllide oxidoreductase. 195: 83
Beesley, R. C.
Solubilization of the ileal receptor for intrinsic factor–vitamin B–12 complex by digestion with papain. 200: 225
Bell, G. D. See Taylor, W.
Bellemann, P.
Amino acid transport and rubidium–ion uptake in monolayer cultures of hepatocytes from neonatal rats. 198: 475
Bellini, T. See Rippa, M.
Bell–Quint, J.
——; Forte, T.; Graham, P.
Glycosylation of apolipoproteins by cultured rat hepatocytes. Effect of tunicamytcin on lipoprotein secretion. 200: 409
Benajiba, A.
——; Maroux, S.
Subunit structure of pig small–intestinal brush–border aminopeptidase N. 197: 573
Bendall, D. S. See Stewart, A. C.
Benito, M. See Lorenzo, M.
Benjamin, W. B. See Ramakrishna, S.
Benjamin, W. S. V. d. W. See Carter, W. J.
Bennett, H. P. J.
——; Solomon, S.; Goltzman, D.
Isolation and analysis of human parathyrin in parathyroid tissue and plasma. Use of reversed–phase liquid chromatography. 197: 391
Bennett, J. P. See Cockcroft, S.; McGill, K. A.
Bennett, R. A. See Pegg, A. E.
Ben–Yoseph, Y.
——; Hahn, L. C.; DeFranco, C. L.; Nadler, H. L.
Deficient phosphorylation of mannose residues of mannan in fibroblasts of patients with mucolipidoses II and III. 193: 651
Berg, A.
——; Rafter, J. J.
Studies on the substrate specificity and inducibility of cytochrome $P\text{–}450_{meg}$. 196: 781
Bergamini, C. See Ranieri–Raggi, M.
Berge, R. K.
——; Hagen, L. E.; Farstad, M.
Isolation of palmitoyl–CoA hydrolases from human blood platelets. 199: 639
Berman, J. N.
——; Chen Guan–Xiong; Hale, G.; Perham, R. N.
Lipoic acid residues in a take–over mechanism for the pyruvate dehydrogenase multienzyme complex of Escherichia coli. 199: 513
Bernhardt, W. See Afting, E. G.
Bernier, J. L.
——; Henichart, J. P.; Catteau, J. P.
Design, synthesis, and DNA–binding capacity of a new peptidic bifunctional intercalating agent. 199: 479
Berry, A. See Jordan, P. M.
Berry, F. See Samaniego, F. C.
Berthon, B.
——; Poggioli, J.; Capiod, T.; Claret, M.
Effect of the α–agonist noradrenaline on total and calcium–45 movements in mitochondria of rat liver cells. 200: 177
Beswick, T. M. See Harrison, F. L.
Betsche, T.
L–Lactate dehydrogenase from leaves of higher plants. Kinetics and regulation of the enzyme from lettuce (Lactuca sativa L.). 195: 615
Betto, R. See Damiani, E.; Salviati, G.
Beyler, S. A. See Anderson, R. A. Jr.
Beynon, R. J.
——; Shannon, J. D.; Bond, J. S.
Purification and characterization of a metalloendoproteinase from mouse kidney. 199: 591
Bhardwaj, D. See Poznansky, M. J.
Bhattacharyya, S. N.
Characterization of collagenous and noncollagenous peptides of a glycoprotein isolated from alveoli of patients with alveolar proteinosis. 193: 447
Bijsterbosch, M. K.
——; Duursma, A. M.; Bouma, J. M. W.; Gruber, M.; Nieuwenhuis, P.
Plasma clearance and endocytosis of mitochondrial malate dehydrogenase in the rat. 200: 115
Binaglia, L. See Orlacchio, A.
Biral, D. See Volpe, P.
Bisson, R.
——; Montecucco, C.
Photolabeling of membrane proteins with photoactive phospholipids. 193: 757
Bjoerk, I. See Danielsson, A.
Bjoernsson, S. See Franzen, A.
——; Heinegaard, D.
Fractionation and characterization of proteoglycans isolated from chondrocyte cell cultures 197: 249
Isolation and culture techniques of fetal calf chondrocytes. 198: 141
Assembly of proteoglycan aggregates in cultures of chondrocytes from bovine tracheal cartilage. 199: 17
Blackmore, P. F. See Dehaye, J. P.; Hue, L.
——; Exton, J. H.
α_1–Adrenergic stimulation of calcium mobilization without phosphorylase activation in hepatocytes from phosphorylase b kinase–deficient gsd/gsd rats. 198: 379
Blackshear, P. J. See Agius, L.
Blair, J. A. See Purdy, S. E.
Bloxam, D. L.
——; Tyler, C. F.; Young, M.
Fetal glutamate as a possible precursor of placental glutamine in the guinea pig. 198: 397
Bloxham, D. P.
The chemical reactivity of the histidine–195 residue in lactate dehydrogenase thiomethylated at the cysteine–165 residue. 193: 93
Bogusky, R. T.
——; Steele, K. A.; Lowenstein, L. M.
The purine nucleotide cycle in the regulation of ammoniagenesis during induction and cessation of chronic acidosis in the rat kidney. 196: 323
Bohn, B. M. See Poyart, C. F.
Bolla, R. See Miller, J. K.
Bonaventura, J. See Wood, E. J.
Bond, J. S. See Beynon, R. J.; Saklatvala, J.
Bonifacino, J. S. See Roguin, L. P.
——; Sanchez, S. H.; Paladini, A. C.
Characterization of human somatotropin binding to detergent–solubilized lactogenic receptors from rat liver. 194: 385
Bonkowsky, H. L. See Healey, J. F.; Sinclair, P. R.
——; Healey, J. F.; Sinclair, P. R.; Sinclair, J. F.; Pomeroy, J. S.
Iron and the liver. Acute and long–term effects of iron–loading on hepatic heme metabolism. 196: 57
Bonney, R. J. See Wightman, P. D.
Boon, P. J. See Boswell, A. P.
Booth, A. G.
——; Wilson, M. J.
Human placental coated vesicles contain receptor–bound transferrin. 196: 355
Booth, I. R. See Ahmed, S.; Kroll, R. G.
Borchardt, R. T. See Pegg, A. E.
Bordoli, R. S. See Barber, M.
Borensztajn, J.
——; Kotlar, T. J.
Hepatic uptake of phospholipid–depleted chylomicrons in vivo. Comparison with the uptake of chylomicron remnants. 200: 547
Boswell, A. P.
——; Moore, G. R.; Williams, R. J.

P.; Wallace, C. J. A.; Boon, P. J.; Nivard, R. J. F.; Tesser, G. I.
Structural studies of eukaryotic cytochrome c modified at methionine-65. 193: 493
Boucek, R. J. See Gunja-Smith, Z.; Weiss, J. M.
Boulton, A. P. See Pascall, J. C.
Bouma, J. M. W. See Bijsterbosch, M. K.; De Jong, A. S. H.
Bouriotis, V. See Myoehaenen, T. A.
Boursnell, J. C. See Von Glos, K. I.
Boveris, A. See Cadenas, E.
Bowden, P. E.
——; Cunliffe, W. J.
Modification of human prekeratin during epidermal differentiation. 199: 145
Bowen, D. M. See Sims, N. R.
Bown, F. E. See Sankey, E. A.
Boxer, D. H. See Graham, A.
Bozzi, A.
——; Mavelli, I.; Mondovi, B.; Strom, R.; Rotilio, G.
Differential cytotoxicity of daunomycin in tumor cells is related to glutathione-dependent hydrogen peroxide metabolism 194: 369
Bradford, N. M. See Lacey, J. H.
Bradshaw, J. P.
——; White, D. A.
Glycoprotein synthesis in explants of developing rabbit mammary gland in culture. 198: 683
Brand, M. D. See Al-Shawi, M. K.; Davis, R. J.
Brattain, M. G. See Kimball, P. M.
Braude, I. A.
——; Lin, L. S.; Stewart, W. E. II.
Size characteristics of human leukocyte interferon under reducing and nonreducing conditions. 193: 947
Braun, D. G. See Chang, J-Y.
Bray, R. C. See Malthouse, J. P. G.; Williams, J. W.
Breant, B.
——; Keppens, S.; De Wulf, H.
Heterologous desensitization of the cyclic AMP-independent glycogenolytic response in rat liver cells. 200: 509
Bredehorst, R. See Gartemann, A.
Bridges, J. W. See Prough, R. A.
Bridges, S. M. See Salin, M. L.
Briggs, G. M. See Stewart, J. H.
Brindle, K. M. See Simpson, R. J.
Brindley, D. N. See Lawson, N.
——; Cooling, J.; Glenny, H. P.; Burditt, S. L.; McKechnie, I. S.
Effects of chronic modification of dietary fat and carbohydrate on the insulin, corticosterone and metabolic responses of rats fed acutely with glucose, fructose or ethanol. 200: 275
Britton, P. See Ward, W. H. J.
Brocklehurst, K.
——; Baines, B. S.; Malthouse, J. P. G.
Differences in the interactions of the catalytic groups of the active centers of actinidin and papain. Rapid purification of fully active actinidin by covalent chromatography and characterization of its active center by use of two-protonic-state reactivity probes. 197: 739
——; Malthouse, J. P. G.
Evidence that the lack of high catalytic activity of thiolsubtilisin towards specific substrates is due to an inappropriately located proton-distribution system. Highly nucleophilic character of the thiol group of thiolsubstilisin in the catalytically relevant ionization state of the active center. 193: 819
Bronner, F. See Miller, A. III.
Brooks, D. E. See Higgins, S. J.
Brown, C. R. See Jones, R.
Brown, F. F. See Simpson, R. J.
Brown, H. L. G. See Sandy, J. D.
Brown, J. E. See Andersson, L. O.
Brown, J. G.
——; Bates, P. C.; Holliday, M. A.; Millward, D. J.
Thyroid hormones and muscle protein turnover. The effect of thyroid-hormone deficiency and replacement in thyroidectomized and hypophysectomized rats. 194: 771
Brown, S. B.
——; Holroyd, J. A.; Troxler, R. F.; Offner, G. D.
Bile pigment synthesis in plants. Incorporation of heme into phycocyanobilin and phycobiliproteins in Cyanidium caldarium. 194: 137
Brown, T. R. See Gadian, D. G.
Brown, W. J. See Verity, M. A.
Browse, J.
——; Roughan, P. G.; Slack, C. R.
Light control of fatty acid synthesis and diurnal fluctuations of fatty acid composition in leaves. 196: 347
Bruchovsky, N. See De Larminat, M. A.; Filipenko, J. D.
Brune, K. See Lanz, R.
Buckwalter, J. See Roughley, P. J.
Bugge, B. See Herscovics, A.
Buki, K. G. See Machovich, R.
Bullimore, D. W.
——; Phelps, C. F.; Jayson, M. I. V.
Extractable proteoglycan from human femoral-head articular cartilage. 199: 433
Bunning, R. A. D. See Murphy, G.
Burditt, L. J.
——; Parker, D.; Craig, R. K.; Getova, T.; Campbell, P. N.
Differential expression of α-lactalbumin and casein genes during the onset of lactation in the guinea pig mammary gland. 194: 999
Burditt, S. L. See Brindley, D. N.
Burgeson, R. E. See Murphy, G.
Burke, J. See Bailey, D. S.
Burton, G.
——; Jordan, P. M.; MacKenzie, N. E.; Fagerness, P. E.; Scott, A. I.
Control of porphyrin biosynthesis in Rhodopseudomonas spheroides and Propionibacterium shermanii. A direct carbon-13 nuclear-magnetic-resonance spectroscopy study. 194: 627
Buss, E. G. See Miller, M. S.
Butterworth, P. J. See Shirazi, S. P.
Bygrave, F. L. See Prpic, V.; Reinhart, P. H.
——; Anderson, T. A.
Ruthenium Red-insensitive calcium transport in ascites-sarcoma 180/TG cells. 200: 343
Bylund-Fellenius, A. C.
——; Walker, P. M.; Elander, A.; Holm, S.; Holm, J.; Schersten, T.
Energy metabolism in relation to oxygen partial pressure in human skeletal muscle during exercise. 200: 247

Cabantchik, Z. I. See Eidelman, O.
Cable, H. C. See Duncan, R.
Cadenas, E.
——; Varsavsky, A. I.; Boveris, A.; Chance, B.
Oxygen- or organic hydroperoxide-induced chemiluminescence of brain and liver homogenates. 198: 645
Cadman, H. . F.
——; Wallis, M.
An investigation of sites that bind human somatotropin (growth hormone) in the liver of the pregnant rabbit. 198: 605
Cake, M. H.
——; Yeoh, G. C. T.; Oliver, I. T.
Ontogeny of the glucocorticoid receptor and its relationship to tyrosine aminotransferase induction in cultured fetal hepatocytes. 198: 301
Calabrese, L. See Cocco, D.; Morpurgo, L.
——; Malatesta, F.; Barra, D.
Purification and properties of

bovine ceruloplasmin. 199: 667
Caldes, T. See Lorenzo, M.
Callahan, J. W. See Jones, C. S.
——; Gerrie, J.; Jones, C. S.; Shankaran, P.
Studies on the hydrophobic properties of sphingomyelinase. 193: 275
Callaway, J. E.
——; Bechtel, P. J.
C-protein from rabbit soleus (red) muscle. 195: 463
Callikan, S. See Ferre, P.
Calvo, K. C. See Klapper, M. H.
Camakaris, J. See Mann, J. R.
Camargo, A. C. M. See Coelho, H. L. L.
Campbell, A. K.
——; Daw, R. A.; Hallett, M. B.; Luzio, J. P.
Direct measurement of the increase in intracellular free calcium ion concentration in response to the action of complement. 194: 551
Campbell, D. G. See Cohen, F. E.
——; Gagnon, J.; Reid, K. B. M.; Williams, A. F.
Rat brain Thy-1 glycoprotein. The amino acid sequence, disulfide bonds and an unusual hydrophobic region. 195: 15
Campbell, I. D. See Simpson, R. J.
Campbell, P. N. See Burditt, L. J.; Craig, R. K.
Campbell, R. D.
